

Field of practice and expertise in reference with the new text of the Architects' Law 2020 / Article 16.1.

As professional architecture technologists, we are authorized to produce and design plans for the construction, expansion or modification of the following buildings:

1°

An isolated single-family dwelling having, after completion of the work, at most one basement level, a building height not exceeding two floors and a total gross floor area of less than 600 m² (6458 p2)

2°

A semi-detached or row single-family dwelling, a multi-family dwelling of no more than four units, a commercial establishment, a business establishment, an industrial establishment or a combination of these dwellings or establishments having, after completion of the work, at most one basement level, a building height not exceeding two floors and a total gross floor area of less than 300 m² (3229 p2)

3°

A silo, an animal waste storage structure or a platform for the storage of animal feed;

4°

An agricultural establishment having, after completion of the work, two floors and a total gross floor area of less than 300 m² (3229 p2)

5°

An agricultural establishment with, after completion of the work, at most one floor and a total gross floor area of less than 750 m² (8073 p2)

Or for the expansion or modification of such an (agricultural) establishment having, after completion of the work, at most one floor and a total gross floor area of less than 1,050 m² (11302 p2)
